

STUDENTS' IMPRESSIONS ABOUT ELAZIĞ VISIT

Fatih's impressions

We had a great time this week. It was great to make friends from different nationalities. We tried to host them in the best possible way. We did various activities together. It was great to teach them what we know and introduce our country.

Ecmel's impressions

Seeing different people from different cultures.... I think I took advantage of this opportunity. The activities we did with them were wonderful and educational. I would attend again, everything was great. Thanks for everything, it was a unique and very different experience. It was a rare opportunity to me.

Musab's impressions

I am sure that this project really adds something to everyone in every aspect. It was one of the best weeks of my life. Even though we were very tired during the week, we accumulated so many beautiful memories that it was worth our tiredness. Now we all have friends of different nationalities and I think this is a great thing for everyone. We will never forget this week when we accumulated beautiful experiences and memories. Thank you everyone for this project.

Sena's impressions

It was a very nice experience. We learned many different cultures in 1 week. This week has been unforgettable for me.

Melisa's impressions

This was my first Erasmus experience. I was so excited for this. During a week, I had the opportunity to get to know many cultures closely and introduce our own culture in the most correct way. Then I made unforgettable friendships. We spent a lot of time with our friends from school and whom we met from Erasmus. We also organized many activities with our teachers at school. I had the opportunity to get to know my own country better with our trips. It was really a great week for me.

Azra's impressions

Thanks to Erasmus, I learned a lot of things. New cultures, new people and most importantly, new friends. We took great care to represent our country in the best way by hosting our guests very well. In this way, we showed their culture, traditions, customs, food and many other things and sent them back to their country with satisfaction. I hope they will come again and we will introduce our country in the best way.

Şevval's impressions

First of all, I would like to thank everyone who contributed to the project, because it was one of the best weeks I have ever had. Meeting new people and making friends is a truly wonderful feeling; we do not always have such an opportunity. Everyone, both teachers and students, was very polite and courteous. Even though we were the host country, they were at least as thoughtful as we were. Although the activities we did for the project tired us out. I think we gained awareness about the environment, even it was a little bit, and the time we spent as students was also very nice. Frankly, I am very happy with this experience. I hope others think the same as me, thank you for everything.

Nehir's impressions

The time I spent with my friends and teachers during the time I hosted the Erasmus project was wonderful. We had time to make a lot of memories together. I am very happy to be the host. My family and I tried our best to host my guest in the best possible way. We treated her with family warmth, as if she were one of our family member. We were very happy that she felt this too. It was an honour to be involved in such a project thanks to the support of our teachers. We had pleasant, adventurous moments with our foreign friends. Every moment was full of joy, from the places we visited to the meals we shared, full of laughter. The places we visited were places that reflected our culture and kept our history alive. I accumulated many memories with my teachers and friends during the trip. We all did our best and hosted them very nicely. Together with my teachers and friends, we reflected our culture in the best way. I would like to thank my teachers and friends for their efforts, the times we spent were very valuable to me.

Suğra's impressions

What I can say about Erasmus is that I think Erasmus was a very important event for language development. The best thing is that we had friends from different countries, we learned about their different cultures and even improved our friendship at school

Nisa's impressions

I am very happy to be involved in this project. I had the opportunity to meet new people. They were all very nice people. I don't get the opportunity to be involved in such a project again, so I feel very lucky. Even it was a one-week process; I felt that it improved my English. I had a lot of fun and learned something. I tasted new dishes from different cultures. I'm so glad I have these. I'm glad I participated in this project. Thanks to everyone involved in the project.

Rahime's impressions

I had a lot of great experiences during the week. I think we hosted them very nicely. Aside from improving my English, Making new friends, we had very good memories; it was a week that we might not experience again. I hope we can see them all again if it is possible.

Furkan's impressions: I've never had such a beautiful experience in my life. It was really nice to meet people from different cultures, spend time with them and chat. Also, thanks to Erasmus, I met new people from school and made great friends. That's why I feel so lucky and the times I spent with them were really beautiful and peaceful. It was one of the best weeks I've ever had. Even though the time we spent was only 1 week, I missed them so much that I felt strange and empty, they became like one of our family. Even though their place is very clear and I am sad to see them go, I would like to thank Erasmus for giving us a beautiful ending and I want to have this opportunity again.

Alper's impressions

Before Erasmus, I could not have guessed that it would be such a good experience for me. I had a very nice week. I treated my guests very well and they treated me very well. We loved each other very much. I wish that week never ended. Hope to meet again maybe one day.
