

Lopatel Eduard

“Regarding my Erasmus experience that took place in Turkey in the city of Elazig, I can say that it was a beautiful experience because I learned so many interesting things and I was received with such warmth and hospitality by the teaching staff and by our hosts. I really liked the activity that took place in the canteen because we could see how all the delicious food from all the participating countries was prepared and we could taste it on the spot. I also enjoyed the activities in which I could interact with all the students because I discovered so many cultures!”

Sandu Daria

“Participating in the Erasmus+ programme in Elazig, Turkey, was an incredibly interesting and fun experience for me. The opportunity to engage in activities that were entirely new to us made the programme unique and exciting. We explored different cultural and educational practices that made us more aware about the importance of protecting our nature. The friendships I forged and the memories I created during this time are invaluable. The warm hospitality of the locals and the rich cultural heritage of Elazig added depth to our journey, making it an unforgettable chapter in my academic and personal life.”

Gavrila-Sorescu Alexia Stefania

“It was an extraordinary experience for me to participate in this mobility. I was impressed by the hospitality and warmth of our hosts and, also, by the cultural richness of the country. The mobility programme was well-organized, offering opportunities for us students to learn and improve our knowledge on the topic of protecting the environment. I have developed a lot due to the engaging activities and to the social interaction with all the other participants. I consider it was extremely beneficial, helping me to develop my communication and adaptability skills. I enthusiastically recommend this experience to all the students!”

Rades Erik-Ionut

“My Erasmus experience in Turkey was incredible. Participating in the Erasmus+ project "YouR Nature YouR Future" on the topic of protecting our environment in such a vibrant and culturally rich country was inspiring. From the moment I arrived, I was welcomed with warmth and hospitality. The programme was meticulously organized, blending educational workshops with hands-on activities that deepened my understanding of ecological practices. Visiting local museums, participating in clean-up activities, and engaging in discussions with environmental experts provided an interesting view of Turkey's commitment to preserving its natural beauty.”
